The Amris Mentored Program.

Mentoring • Airline Preparation • Career Guidance

DUBLIN,
IRELAND

Your Journey to the Airline Cockpit Starts Here

Becoming an airline pilot is one of the most exciting and rewarding journeys you can undertake, but also one of the most demanding.

The reality is that pilot training can be intense, stressful, and highly competitive. Many students begin training motivated and ambitious, but later struggle with confidence, workload, uncertainty, or simply not knowing where they stand.

The Amris Mentored Program was created to change that.

Delivered alongside selected high-performance ATPL Integrated programs, the Amris Mentored Program adds an additional layer of mentoring, airline preparation, and professional development around your training.

**You do not simply train to pass exams.
You train to become airline-ready.**

About Amris Aviation

Formerly known as The Airline Pilot Club (APC), Amris Aviation is an Ireland-based aviation consulting and pilot development company that works with airlines, flight schools, and aspiring pilots worldwide.

The company supports airlines in areas such as pilot recruitment, training standardisation, safety management systems (SMS), competency development, and the implementation of AI-driven training solutions.

Amris works exclusively with a carefully selected group of flight training academies that have demonstrated the highest standards of training quality, professionalism, and commitment to student success.

Amris works directly with aspiring pilots throughout their training journey, helping them develop the skills, confidence, and professional behaviours airlines value most.

What Is Included in the Amris Mentored Program?

Personal Mentoring Throughout Training

Receive guidance and support from experienced aviation mentors and airline pilots who help you navigate every stage of your training journey.

Student Benefit

You never go through training alone. Your mentors help you stay focused, confident, and motivated throughout the most demanding phases of training.

Airline-Style Scenario and Competency Development

Learn the communication, decision-making, teamwork, and workload-management skills airlines expect from modern First Officers.

Student Benefit

Develop the professional habits and airline-style thinking that help students stand out during airline assessments and interviews.

Airline Interview & Assessment Guidance

Receive support and preparation for airline interviews, assessments, applications, and career progression.

Student Benefit

Transition more confidently from flight school into airline recruitment opportunities.

AI-Supported Progress Insight Through Amelia

Gain a clearer understanding of your strengths, weaknesses, and progress through advanced AI-supported training insight.

Student Benefit

Always know where you stand and what you need to improve to become the best pilot you can be.

Multi-Crew & APS MCC Preparation

Prepare for airline-style cockpit operations before reaching the APS MCC phase of your training.

Student Benefit

Arrive at APS MCC and airline assessments more prepared and more confident than most students.

Airline Ready Pilot Pool (ARPP)

Graduates who meet the required standards gain access to the Airline Ready Pilot Pool (ARPP), a structured airline-readiness and career-transition pathway.

Student Benefit

Benefit from a clearer and more structured pathway between graduation and future airline recruitment opportunities.

**Your Flight School Trains You to Become a Pilot.
Amris Helps You Become Airline-Ready.**
